TABLE OF CONTENTS

Argentum III ................................................................. 1

Speech: Robert Huggett (speech not available)

EXTENDED ABSTRACTS

Behavior of Silver in the Water Column

Invited Speaker: Frontiers in Our Understanding of Trace Metal Behavior in Sulfidic Solutions, G.R. Helz (abstract not available)

Session 1:

Plenary Lecture — The Occurrence and Behavior of Silver in Natural Waters ...... 7
A.W. Andrén, B. Wingert-Runge and D. Sedlak

Effect of Water Quality Parameters on Silver Availability ......................... 11
G.P. Cobb, S.J. Klaine, T.W. La Point, R. Jeffers, M. Wenholz, B. Forsythe, T. Bills and V.C. Waldrop

Aqueous Silver in the Environment: Conceptual ........................................ 19
J.R. Kramer

Silver Sorption by Manganese Oxide ..................................................... 31
R. Ravikumar and D.W. Fuerstenau

Silver Binding to Mixed Metal Sulfides .................................................. 41
N.W.H. Adams and J.R. Kramer

Session 2:

Plenary Lecture — The Toxicity of Silver in Fresh and Marine Waters .......... 51
C.M. Wood, I. Morgan, F. Galvez and C. Hogstrand

Silver, Copper, Cadmium, Dissolved Organic Carbon and Fish .................... 61
R. Playle, L. Hollis, N. Janes and K. Burnison

Influence of Water Quality Parameters on Silver Toxicity: Preliminary Result ................................................................. 65
S.J. Klaine, T.W. La Point, G.P. Cobb, B.L. Forsythe II, T.P. Bills, M.D. Wenholz, R.D. Jeffers, V.C. Waldrop and C.M. Bens
The Comparative Toxicity of Silver to Aquatic Biota ..................... 79
W.J. Birge and J.A. Zuiderveen

The Effects of Salinity on the Acute Toxicity of Silver to Marine Fish ............. 89
E.A. Ferguson, J.R. Shaw, C.M. Wood and C. Hogstrnad

Environmental Cycling, Distribution and Analytical Chemistry

Invited Speaker: Chemical Interactions of Toxic Metals with Sedimentary Sulfide Minerals Near the Sediment-Water Interface of Anoxic Marine Sediments .................................................. 95
J.W. Morse

Session 3:

Plenary Lecture — Sampling & Analytical Techniques for Silver in Natural Waters ................................................................. 99
M.M. Shater

Matrix Effects on the Measurement of Active Silver by Anodic Stripping Voltammetry ................................................................. 113
P.T. Dao, K.A. Robillard and D.E. Schildkraut

Preconcentration and Voltammetric Measurement of Silver Ion (I) at a Chemically Modified Carbon Paste Electrode ........................................ 123
S. Song and P.S. Fedkiw

A Review of Toxicity and Epidemiological Data for Silver in Animals and Humans ................................................................. 129
D.R. Juberg

Factors Affecting Silver Accumulation and Metallothionein Induction in Freshwater Fish ................................................................. 133
F. Galvez, C. Hogstrand and C.M. Wood

Interaction of Silver and Metal Chelators on Ceriodaphnia dubia Survival and Reproduction ................................................................. 135
J.A. Zuiderveen and W.J. Birge

Physiological Effects of Silver to Seawater-Acclimated Rainbow Trout .......... 143
C. Hogstrand, J.R. Shaw, E. Ferguson, W.J. Birge and C.M. Wood

Session 4:

Plenary Lecture — Determination of Thermodynamic Stability Constants of Metals with Natural Ligands ........................................ 153
G.W. Luther, III, B.L. Lewis and S.W. Taylor
Phase Partitioning of Silver in River and Estuarine Waters of Texas .......... 159
P.H. Santschi, L.S. Wen, C. Paternostro and G. Gill

Silver Levels and Partitioning in Effluent-Receiving Streams, and a
Preliminary Mass Balance for Silver in the Lake Michigan Basin .......... 169
M.M. Schafer, D.E. Armstrong and J.T. Overdier

Silver in Fresh Water: Sources, Transport and Fate in Connecticut Rivers ...... 181
T.F. Rozan, K.S. Hunter and G. Benoit

Silver Loadings in Sewage Treatment Plants and in the Natural Aquatic
Environment of Finland ................................................. 185
A.B. Mukherjee and P.W. Lahermo

Comparison of Laboratory and Field Partitioning of Silver in Natural Waters .... 195
B. Wingert-Runge and A.W. Andren

Behavior of Silver in Sediments

Invited Speaker: Reactions of Trace Metals in Lake Sediments .......... 203
A. Tessier

Session 5:

Plenary Lecture — A Comparison of Sediment, Water and Food as Sources
of Silver for Marine Bivalve Molluscs ................................ 209
N.S. Fisher

The Biogeochemistry of Silver in an Estuarine System ................. 213
G. Benoit and T.F. Rozan

Silver in Oyster Tissue: Relations to Site Selection and Sampling Size .......... 217
K.D. Daskalakis

Partitioning and Effects of Silver in Amended Freshwater Sediments .......... 223
J.H. Rodgers, Jr., E. Deaver and P.L. Rogers

Trends in Ag Concentrations from Sediment Cores in San Francisco Bay ....... 247
A. van Geen, R. Bouse and S.N. Luoma

The Role of Colloids in the Transport of Trace Metals in the San Francisco
Bay Estuary ................................................................. 251
S.A. Sanudo-Wilhelmy, I. Rivera-Duarte and A.R. Flegal

Session 6:

Plenary Lecture — Effects of Silver in Sediments ......................... 255
D.M. Di Toro
Silver in the Waters of Narragansett Bay and New York Harbor .................. 259
C.D. Hunt

Uptake and Release of Silver from Marine Sediment ............................. 267
E. Crecelius and D. Phillips

PANEL DISCUSSIONS

Regulation of Silver in the Water Column ......................................... 273
J. Romney, D. Armstrong, R. Cappel, E. Crecelius, N. Fisher, P. Santschi,
A. Sodergren and C. Wood

Regulation of Silver in Sediments ..................................................... 287
M. Reilley, D. Di Toro, J. Kramer, K. Robillard, J. Rodgers, Jr. and A. Tessier

POSTER SESSION

Influence of Temperature and Thiosulphate on Active and Passive Uptake
of Silver by Rainbow Trout ............................................................. 299
N. Janes, J. Richards and R. Playle

The Physiological Effects of Acute Silver Exposure in Rainbow Trout
(Onchorhynchus mykiss) ................................................................. 303
I.J. Morgan, F. Galvez, R.S. Munger, C.M. Wood and R. Henry

PARTICIPANTS

List of Participants ............................................................................. 309

Editors' Note: The extended abstracts included in this document have been printed as submitted by their respective authors and have not been subjected to peer review. The material presented here reflects solely the findings, opinions and conclusions of the individual authors. Questions and answers on the verbal presentations of the papers plus the two panel discussions were recorded at the conference, transcribed and edited for clarity by the editors, including consultation with the authors when necessary.
