SPECIAL NOTICE.

THE great advance made by these Stores in the Departments already opened, and the gradual development of a higher class business, encourages us to hope that our most recent additions of New Branches of Drapery, etc., as named below, may also prove an unqualified success. The principles upon which the Stores have hitherto merited support, viz. : Excellence of Quality combined with Moderation in Prices, will be applied to the New Departments, and no efforts will be spared to place before our Customers the Newest and most Fashionable productions as each season approaches.

We would refer briefly to an opinion that has in some quarters found expression, viz. : that Stores generally, though cheaper than other establishments, do not so effectively cater for the fashionable requirements of their lady clients ; we have, however, engaged the services of buyers of first-class West End drapery experience, and have every confidence that we shall prove the exception to this rule.

It has been found impossible, in this issue of the Drapery List, to specify in minute detail every item kept in Stock, but requests for further information than is contained herein will be full and promptly replied to.

Orders received through the post will be carefully executed and despatched per return. Those for the suburbs should reach the Stores not later than 4.30 p.m. the day before delivery is required.
