Designing Suits and Long Coats.

This system shows the Weiler designing pattern which is made 36 normal proportion.

The first diagram is a Tailored Suit Model, which can also be used for long coat.

The other outlines the same, ready to use without any system knowledge.
Designing Dresses.

The first is a dress designing system. The second is ready to use, without the slightest need of learning a system.

Lay up this little block on any part of the paper. Draw a line around the end, and make as many different styles as you wish.

You know one cannot accomplish anything without a little practice, so do not allow yourself to become impatient, as practice will make perfect.

Page One Hundred Twenty Five
Finished Designing.

All the other designs show how to make different kinds of suits from the same pattern.
