UNITED STATES  
FOOD ADMINISTRATION

To the Women of the Universities and Colleges:

The United States Food Administration calls you to its service. Our need is so great that we appeal to you to prepare yourselves and to enlist for the great work that must be done.

All our questions now center in food; its production, its distribution, its use, its conservation. The more you know about these things, the more valuable you will be, and the greater will be your service to humanity.

We urge you to pursue those studies which deal with food, and to train yourselves for real leadership.

The time is coming soon when the souls of men will be tried as never before. They must have the truth that will make them free. They will listen to you if you can give them that truth.

To-day your country asks you to resolve to do what you can in this the hour of extreme peril to the democratic peoples of the world.

Faithfully yours,
