**DIETETICS**

*At last we have it!* For the past eight years, whenever a Convocation of the Rose Cross Order was held at "Beverly Hall," we were requested time and again to prepare a book on Dietetics that would be in harmony with the teachings of the Order, and which would at the same time embody the laws of diet in their relation to health, strength and greater vitality.

These requests became so insistent, and added to this were the demands for such a book by the teachers of the Rose Cross Aid in its work of reconstruction, that we were led to devote the time and energy necessary to the preparation of this book on "Dietetics," which will, we believe, meet all demands, the teachings of which are sane and rational, and of a character to meet all the requirements of that great subject, of food economy.

We state without hesitation that this book is far more
complete, in every respect, even in the treatment of diseases by
diet, than most of the courses now being sold for from $15.00 to
$150.00 and if these statements are not found to be true by those
who get the book, it may be returned within twenty-four hours
after receiving it and the money paid will be refunded.

This book is the standard, authorized text book used by all
teachers of Dietetics for the Rose Cross Aid. It is also the text
book used in the training of students to become teachers in our
“School of Dietetics and Food Economy,” and for the prepara-
tion of those taking up Dietetics as a profession.
