

Street and Avenue Guide

EXPLANATORY.—Beloit is numbered according to the Germantown plan, with 20 feet as the unit of measure.

All streets running north and south, count from the state line, with the even numbers on the west side of the street. The first block begins with 100, the second with 200, the third with 300, etc., increasing by 100 with each succeeding block; but Bushnell street and Bridge street form a correction line, which corrects to 600.

All streets running east and west, count eastward and westward from Fifth street, with the even numbers on the south side of the street. The correction lines in passing eastward are Pleasant street, correcting to 500, and Park avenue, correcting to 900. In passing westward, Bluff street corrects to 300; Eighth to 700, and Hackett street to 900.

On streets which cross Fifth street, "w" is annexed to the number of each house west of Fifth street, thus: St. Paul's P. E. Church, 102 w Bridge.

References D4, Q9, etc., are to the map on pages 50 and 51.

*Most of the years behind him
Have passed on very well;
Though "troubled waters" vexed him,
And many a comrade fell;
Yet meeting competition
With a "patent" of his own,
Dow sought for him no partner,
But played his hand alone.* (See page 45)

Piano Tuning and Repairing

I have made arrangements so that I can tune a few Pianos the first of each week. Mr. L. Fischer will attend to my business in the store when I am out tuning. Reference, all the leading musicians of **Madison, Wis.** where I had **Unparalleled Success** in the **Tuning Business until the Summer of 1887**, when I was obliged to give it up entirely, on account of failing health. Read recommendations below from Bradbury Piano Factory, New York, where I learned the Tuning and Repairing business.

NEW YORK, APRIL 8, 1879.

MR. JOHN E. SARGENT has been repairing and tuning in my Factory and has had the very best advantages and I most cheerfully recommend him to any who may wish his services in that line. He is a reliable gentleman, and I hope will meet success which he deserves, as there are so few competent to do such work as he can, he having a full supply of tools to do the same.
