Second National Bank of Beloit—Incorporated 1882; capital, \$50,000; Wm. B. Strong, president, F. M. Strong, vice president; B. P. Eldred, cashier. No., 352 Bridge.

Beloit College

Beloit College was founded in 1846, the charter of the college bearing the date of February 2nd. The first meeting of the board of Trustees was held on October 23rd 1845, the first College building, the present middle college was begun in the autumn of 1846. The first class in the college began work under Mr. S. T. Merrill on November 4th 1847. It is an interesting fact that some of the old apparatus made by Mr. Merrill is still to be seen in the Pearsons Hall. The College has had two Presidents, the Rev. A. L. Chapin from November 21st 1849 to June 29th 1886, and the Rev. E. D. Eaton since June 29th 1886.

The college has gradually developed from the very beginning. Buildings and equipments have been added from year to year as money and means were available. At the present time the college has two buildings for recitation work, three dormitories, chapel, library, art hall, astronomical observatory, gymnasium and building for the preparatory department. It is expected that the old gymnasium will be replaced at an early date by a modern, commodious, up to date, fully equipped new building.

### Beloit College - (Continued.)

The faculty now numbers, including Professors, lecturers, instructors and assistants thirty-three. The oldest member of the faculty Professor Porter, has been in continuous service since 1852. The College has enrolled more than 4000 students about 700 of whom are on the Alumni lists as full graduates. There are at present three parallel courses of study in the college, - the Classical, Philosophical, and Scientific, each course having about an equal number of students. Graduates from the first two courses receive the degree of Bachelor of Arts, from the Science Course the degree of Bachelor of Science. While believing that a rounded education should combine a knowledge covering a wide range of study considerable opportunity is given for selection along particular lines of work. The courses in language are long and the College has enjoyed from the first a reputation for the thoroughness and excellence of the work in the ancient and modern classics. Since the completion of the Pearsons Science hall the courses in science have been developed until the Science Course is now fully on a plane with the classical course.

The best test of the work of the College lies in the record of its alumni. By far the great majority of those who have graduated from the college have been successful in their several occupations in life; many having achieved unusual success. The College has sought from the first to give the graduates an equipment for the life work; it has considered information secondary to the development in the student of positive thought—power. With this end in view there has always been a balance established between the studies which gave a knowledge of the thought and purpose of men. It has endeavored to make scholars of men, but at the same time something more than scholars; it has sought to make them citizens.

### Bicycle Ordinance

No person shall ride upon a velocipede or bicycle of any description on any sidewalk of the city of Beloit, except in crossing the same, within the fire limits of said city, or outside the fire limits upon West Bridge street between Bluff street and the Northwestern railroad track where it crosses said West Bridge street.

No person shall ride upon any velocipede or bicycle on any sidewalk within said city of Beloit at a higher rate of speed than four miles an hour when meeting or overtaking and passing a pedestrian.

No person shall coast down any hill or grade upon a velocipede or bicycle on any sidewalk in said city of Beloit.

No person shall ride upon any velocipede or bicycle upon any sidewalk in the city of Beloit during the night time.

Any person or persons who shall violate any of the provisions of this section shall forfeit a penalty of not less than \$2 or more than \$5 for each and every offense.

This ordinance shall take effect and be in force from and after its passage and publication.

Ordained and enacted by the Common Council of the city of Beloit this 6th day of June A. D. 1892.

**MURRAY & JOHNSON.**

## BELOIT WATERWORKS COMPANY.

**T**HE CITY OF BELOIT has one of the finest water supplies in the country, remarkable for its purity. The source of supply is evidently the same as that of Waukesha, Palmyra and other notable Wisconsin waters in this part of the state, as the analysis shows. The water is supplied by innumerable springs bubbling up under the bottom of a huge well thirty feet in diameter and forty feet deep. It is so clear and colorless that a cut glass when filled to the brim looks no different than the empty glass.

We give the interpretation of analysis made by Prof. E. G. Smith, of Beloit college: Interpretation of results. The low amount of free ammonia, albuminoid ammonia, oxygen consumed and nitrates, and finally the physical properties indicate an almost absolute freedom from organic matters. (2) The hardness is about the average of our surface waters. (3) The results of the analysis show this water to rank among the very best city supplies.

ERASTUS G. SMITH, Ph. D

The grounds of the Waterworks occupy about five acres on the east bluff of the city and made a very beautiful little park with its natural trees and sloping lawns. The water tower, 100 feet high, is built of stone on raising ground and is the finest and largest piece of stone masonry of the kind in the west. The tower sustains a large cypress tank, holding 100,000 gallons of water, which is kept full at all times, day and night, and gives from its own head 60-pounds pressure to the business portion of the city. The pumps give a direct pressure of 125 pounds when required for fire purposes. Beloit has sixteen miles of water mains and over 150 fire hydrants, thus giving splendid fire protection as well as beautiful and healthful water for domestic purposes.

An auxillary water station on the West Side is also connected with the system and run by water power.

Station No. 2: 1070 College ave, north; Edward Hunter, captain; Eugene Hending, driver; pipemen: O. W. Smith, Paul Holverson, Ray Chambers, Wm. Ranc; sub Wm. Lathrop.

**TO GIVE AN ALARM**—Go to the nearest box, break glass in box, take key and unlock box, then pull down once on hook which is in plain sight, and the alarm is given.

The first stroke or strokes of the fire bell designate the ward from which the alarm is turned in: it also designates the first figure of the box number. This is followed by a brief pause, and the remaining strokes indicate the second figure of the box number—thus: 1 stroke, pause followed by three strokes, means First Ward, box No. 13; fireout, 1-1; more pressure, 2-2; more help, 3-3.

## Location of Boxes.

Beloit Telephone Company: J. E. Carr, Manager; office, Unity Block. Wisconsin Telephone Company: B. A. Oliver, Manager; office, 324 State.

### Ward Boundaries.

**FIRST WARD:** Lies entirely on the east side of Rock river, and is bounded as follows: Beginning in the center of Bridge street bridge and in the center of Bridge street, the lines dividing First and Second Wards runs straight to the center of School street; from its intersection with School street it runs east on the center line of School street to Union street, thence north on the center line of Union street to Chapin street; thence east on the center line of Chapin street to Milwaukee road; thence northeast to the center line of Milwaukee road to the intersection of the center line of this road with the line dividing the towns of Turtle and Beloit. From this point it runs south to the State line, thence west on the State line to the center of Rock river and up the center of Rock river to Bridge street bridge.

**SECOND WARD:** Includes all the territory within the city limits upon the east side of the center of Rock river not included in the First Ward.

**THIRD WARD:** Includes all of the territory in the City limits on the west side of Rock river, between the center line of E and C streets.

**FOURTH WARD:** Includes all of the territory on the west side of Rock river south of the center line of E street.

**FIFTH WARD:** Includes all of the territory in the city limits on the west side of Rock river, north of the center line of C street.

# Hillcrest

## THE SPOTLESS TOWN.

Buy a Hillcrest lot—buy it for an investment and make some money. Build a home upon it and live in "Spotless Town." Hillcrest lots are not the common kind, yet many of them are selling for a common price—a price within reach of the people.

**A HOME AT HILLCREST IS A HOME TO BE ENVIED.**

For particulars call at Hillcrest or on

O. B. OSBORNE.

Worry kills. Work doesn't. Give us the work and save the worry.

## THE NEW MANUFACTURING SITE

---

**E**XTENDING from the State line south and from the Rockton road on the west to the Roscoe road on the east, a portion of which is already platted into residence lots, with streets laid out and graded. 5,000 feet of best Portland cement side walks already in and water mains to be put in abutting each lot, priced at \$250.

John Thompson & Sons Mfg. Co.'s new factory is now completed and in operation, and the Racine Knitting Co.'s fine new plant is just ready to start up, both being of most approved construction and served by switches from joint track system of Chicago & Northwestern and Chicago, Milwaukee & St. Paul Railway Companies.

For prospective investors no more attractive property is now in the market, some purchasers having already realized 20 per cent. advance on their lots.

Five hundred (500) lots of this tract are located from two to six blocks from the principal business and residence streets in the city of Beloit. The new electric line will, with its extensions, pass through the center of this property. The natural slope of the land is sufficient for good drainage and the finest of water is within easy reach of drive wells.

The general policy of the South Beloit Land Association will be to extend cement walks and water mains to reach all lots sold for \$250, and in every way to make South Beloit a desirable place of residence.

For further particulars, call at our office, 142 State Street,  
BELOIT, WIS., or call us up over Bell Telephone, No 79.
