The home of Mother's Bread is one of the most complete, up-to-date Baking Plants in Wisconsin.

DICK BROS. COMPANY

We Extend a Cordial Invitation to Homecomers, as well as local people, to visit our bakery, BUFFALO STREET, NEAR EIGHTH
The Development of a Sheet Metal Works

This business was established in 1902 as a tinshop, serving the needs of the city and surrounding towns at that time. The building of cheese vats and cheese factory equipment was soon added, following which the manufacturing of milk cans was taken up on a larger scale so as to serve the dealers throughout the state.

Finally the business developed into the manufacturing of galvanized iron roofing, eave troughs and ridge roll and wholesaling of black and galvanized sheets, composition roofings, furnaces, furnace pipe and fittings, conductor pipe, etc., and the importing of foreign dairy tin.

Incorporated in 1919 the company now has a complete plant and equipment, capable of doing every class of sheet metal work and welding, as well as automobile work in both wood and metal, auto radiator repairing and a wholesale department, serving a large and fast growing territory.
