

A Career of Triumph

During its career of over a century, more than one hundred and fifty awards and medals have been given to the Chickering, including the Imperial Cross of the Legion of Honor.

Such great artists as Lhevinne, Dohnanyi, Mirovitch, Dumesnil, Souvaine, Gordon, Elly Ney, Barber, Boshko, Schnitzer, Scionti, D'Alvarez, Copeland, Zucca, Chiapusso, Maier and Pattison, Jan Kubelik, Amelita Galli-Curci and Paul Whiteman have chosen this piano upon which to display their genius.

America's Oldest and Finest Piano

We will be pleased to have you see our line of Grands in our Piano Parlors—we have the largest display in the state.

Your present piano will be taken in partial payment, and easy terms for the balance can be arranged.

WHEN you contemplate the greyhound slickness of the Pinkerton, you dwell neither upon the soft, warm comfort woven in with the wool nor upon the Pinkerton weave which does away with sag. All you think of is what a useful, attractive garment it is.

The Pinkerton *is* good looking. Because it is a Jersild garment—a *thoroughbred*. It is the ideal utility coat—for men and boys of all ages, sizes and tastes—for indoors or out—for work or for play. Ask your dealer about Pinkerton "10-point supremacy." Buy no Knitted Coat or Sweater without seeing the word Pinkerton or Jersild worked in the label. The sign of the *genuine*—and your money's worth.

With Age Comes Honor

When added years bring achievement, age brings with it respect and honor.

At this time of Golden Jubilee, graduates of the Menasha High School look back with gratitude to the foundation laid in the classroom for useful and happy lives. Age for our High School has indeed brought great honor.

For the Bank of Menasha, founded 55 years ago, age has also brought honor, for the record of this bank has been consistent helpfulness for the individual and for the community.

Today, with ripe experience behind it, the Bank of Menasha offers to all—young and old—the advantages of a strong, friendly bank that is able and willing to play a large part in the financial welfare of its customers.
