THE AEROFLITE

HEADLIGHTS
recessed in the body,
as in aero-dynamic
automobiles.

NEW STEERING PRINCIPLE. Patented construction provides for steering through slot in body. Gives positive, direct, accurate steering for the first time, with handle resting almost flat against the body—and a stronger, more rigid front end than ever before. Large fifth wheel is die-formed, turntable style; no front braces required.

ONE PIECE BODY. Drawn from a single piece of metal correctly reinforced; not welded. Practically indestructible.

QUICK DETACHABLE FEATURE. The one-piece body is attached to the running gear with eight bolts. The undergearing is die-formed and completely assembled at the factory.
