

up, then cultivated 15 times, following which I sowed (on or about July 21st) an additional 100 pounds of commercial fertilizer (2-12-2), following which I cultivated once more. The corn was cut and shocked September 18th to 20th."

Jippa has put his heart and soul into corn improvement, and he is at his best when telling how he raises and puts up his show samples and seed corn.

AVVERAGE YIELDS PER ACRE OF THE PURE BRED AND PEDIGREED GRAINS

Variety	Average Yield
Pedigree Barley.....	48.3
Oats—Pedigree 1.....	48.0
Pedigree 5.....	30.5
Pedigree 7.....	37.1
Pedigree Rye.....	27.1
Marquis Spring Wheat.....	12.6
No. 7 Corn (Silver King).....	66.7
No. 12 Corn (Golden Glow).....	63.5

OUR FOREIGN CONQUESTS

While there is yet a considerable portion of the territory within our own state where miscellaneous and scrub grains persist, and this territory should be the battle ground of our increasing efforts to drive out the scrub population with the pure-bred varieties, at the same time we have been pioneering in foreign fields, and our conquests have been remarkably successful. In several European and Asiatic countries, as well as in Australia and South Africa, several of the Wisconsin grains have long since won their right to permanent citizenship, and in the Valley of the Nile, one of the most ancient seats of civilized agriculture, the Wisconsin Silver King corn is now taking its place beside the date palm and the fig tree. The accompanying cut showing letter and check from Egypt for a second order of Silver King corn will be of interest to all who have placed their faith in the pure-bred grains and who are proud to see their reputation spread and their territory widened.

Professor R.A. Moore,
University of Wisconsin,
MADISON, Wisc.

Dear Professor Moore,

but The Silver King Corn received from you last year is among the half dozen of the many varieties tried here, yielding 74 bushels per acre in 102 days. We wish to give this corn another trial this year in several localities in Egypt, and I am therefore cabling you to-day as follows:

" Ship five bushels Silver King Corn via Garvey Forwarding Company, Oliver Building, Boston. Remittance coming. Sultanic Agricultural Society, Cairo, Egypt."

Enclosed please find New York draft for thirty dollars in payment for seed corn and charges in connection with shipment. Thanking you for past courtesies,

I remain,
Very truly yours,
R. H. Forster.

A LETTER AND CHECK WHICH TELL THEIR OWN STORY.
