Baking Powder Figures That DON'T LIE.

The Royal Baking Powder Co. try to give the inference that their powder contains more Cream Tartar and that its Leavening Power is greater than any other made, as stated in their advertisement on the "Comparative Worth of Baking Powders," exhibited by black lines. Our name was mentioned in connection with one of our cheaper brands, made of different materials as the trade might demand. Our Cream Tartar brand of Andrews' Pearl was omitted, evidently for a very good reason, judging from the relative merits of Andrews' "Pearl," and the Royal, as clearly demonstrated by the Government Chemist, Dr. Peter Collier, of the Department of Agriculture, at Washington, from samples received by him from dealers who furnished the samples from their stocks on hand in open market.

DR. COLLIER'S ANALYSIS.

U. S. DEPT. OF AGRICULTURE.
WASHINGTON, D. C., March 13, 1888.

C. E. ANDREWS & CO.—Gentlemen: I received by express from Thos. Lydon and J. P. Harkins & Co., Grand Ave., Milwaukee, and Harper Bros., Chicago, Ill., samples of Andrews’ Pearl and Royal Baking Powders. The cans were in good condition when received and the seals unbroken. I find upon analysis that Andrews' Pearl Baking Powder contains about four and a half (4½) per cent. more cream tartar than the Royal Baking Powder, and a proportionately larger percentage of carbonic acid gas, and I find it to be free from alum, and any injurious substances.

Sincerely yours,

PETER COLLIER,
U. S. Chemist Dept. of Agriculture.

Government Chemist Collier's Analysis as to the Leavening Qualities.

No wonder the Royal Co. omitted Andrews' Pearl from their "Comparative List," as Government Chemist Collier's analysis shows conclusively two things: 1st, That Andrews' Pearl contains more Cream Tartar than the Royal, as shown by the cuts above; 2nd, That the Leavening Power of Andrews' Pearl is greater than the Royal, as shown by the two black lines above.

CHALLENGE.

We will give the Royal Co. or any one else $1,000 or $5,000 if they can prove by any fair mutual test that Andrews' Pearl Baking Powder does, or ever did, contain alum, or any injurious substances, and this challenge is open forever. Andrews' Pearl Baking Powder is sustained by a testimonial as to its purity and strength by the only genuine commissioned Government chemist, such as the Royal Co. never have published. Try it.

C. E. ANDREWS & CO.,
287, 289 & 291 E. Water St., Milwaukee. 29 Lake St., cor. Wabash Ave., Chicago.

We manufacture only first-class Farm and Spring Wagons, Buggies, Carriages and Road Carts. Where we have no general or local agents, we will fill your orders direct from the factory. Write us for Catalogue and Price List.

FISH BROS. WAGON CO., Racine, Wis.
The Original Boss Churn,
Manufactured by H. H. Palmer & Co.,
of Rockford, Ill.,

Has within the last seven years nearly revolutionized the way of making Butter, that is Butter was not kept in the grain state to any extent before the introduction of the Barrel Churn, of which we are the largest manufacturers in the world. There are at the present time about 150,000 of our Churns in use in this country and Canada, and many in foreign countries. The largest exporting house of this country, of whom Mayor Grace of New York is the head, upon receiving a large order (for the best Churn in America) sent the order to us although entire strangers.

THE BEST WASHER.

The tub board and roller bed shown under the machine is what does the work, washing the dirtiest part of the garments as much as you please without putting your hands in water.

H. H. Palmer & Co., Rockford, Ill.—(Cont.)

This is to certify that we are and have been using one of your Boss Clothes Washers for some three months and can say that we can turn out more work, easier and cleaner than any other washer we have ever tried in our laundry. We have washed 150 shirts, collars and cuffs, besides a large amount of other goods in one day, using no washboard for any of it. They certainly do all that is claimed for them. We would not be without one for three times the price of them. Yours respectfully,

I. L. Burgess, Manager.

"I can do three times the work with this washer, can wash all parts of the garments clean, including collars and cuffs without using the washboard. I have a steam jet running into one corner of the machine and keep the ends boiling hot. I have tried all kinds of washing machines." This is the exact language of the proprietor of one of the largest steam laundries in Chicago, after using the Washer for three days.

The "Domestic Jewel" Churn

"Gift Edge Butter Worker"

Makes more and better butter from the same amount of cream than any other Churn, dasher has beveled edges, does not injure the grain but runs close to every part of the inner surface and churns every drop of cream.

Is the only worker in use that does not injure the grain of butter, by bringing the clamp down the whole mass of butter is worked with one motion all being pressed alike without any slipping, rubbing or grinding motion. No skill required to use it. Guaranteed the best in use in every respect.
