*Wisconsin's congressional districts based on the results of the 1980 Census of Population are established by Chapter 154, Laws of 1981, as affected by Chapter 155, Laws of 1981. A correction note in U.S. Census publication, PC89-1-B31 (p. 6; published August 1982), shows a 1980 Wisconsin population of "4,705,642". However, all redistricting is based on information furnished to the states under federal P.L. 94-171. For Wisconsin, the tape received on 3/23/81 showed a statewide population of "4,705,389". On 11/16/81, the Census Bureau certified corrections bringing the total to "4,705,767"; on 5/30/82, to "4,705,521". Since that is the final corrected figure certified by the Census Bureau to the Wisconsin Secretary of State, all redistricting, including the legislative districts promulgated on 6/17/82 by the U.S. Court for the Eastern District of Wisconsin, is based on a statewide total of "4,705,521".
