I met Bill in the mid 1970's at the Wisconsin Electric Railway Historical Society. Bill was born August 18, 1943, in Milwaukee at Columbia Hospital. He attended local public schools and graduated from Washington High School in 1961. Bill received two history degrees and a teaching certificate while attending colleges at Purdue, Wisconsin, Anderson, Illinois, and University of Wisconsin-Milwaukee.

Bill rode on many streetcars and became a TM fan very early on. He is often consulted about his knowledge of the TM for historical displays. Bill has spent a large amount of time and resources during the formation of the Illinois Railway Museum. Bill was a major contributor in form of time and research for the publication CRBA 112 (better known as the TM book with imitations W.C. Fields).

Without the dedication and persistence of Bill, this book would not be complete. Bill spent long, tedious hours going through 60 years of newspaper history covering a period of time from construction to abandonment of the Burlington line of the Milwaukee Electric Railway and Light Co. As a personal thank you to the TM historians, this publication is dedicated to Bill Noddin.
