

Acknowledgments

The Bureau of Mines, in preparing these Volume III Minerals Yearbook Reports, extensively utilized statistics and data on mineral production, consumption, and trade provided by various foreign government minerals and statistical agencies through various official publications. The cooperation and assistance of these organizations is gratefully acknowledged. Statistical and informational material was also obtained from reports of the U.S. Department of State, from United Nations publications, and from the domestic and foreign technical and trade press. Preparation of this summary volume would not be possible without the contributions of the country specialists and the Branch Chiefs of the Division of International Minerals, the commodity specialists of the Division of Mineral Commodities, and the International Data Section of the Division of Statistics and Information Services, all components of the Information and Analysis Associate Directorate.
