My dear Miss James.

Our rejoicing over the great victories have almost made us forget our local defeat. It was inevitable I believe and nothing that the League could have done would have changed the result. When I consider the time, energy and money which a member of

able women here. put into the
campaign, I begin to realize the
magnitude of the opposition. I am
sending you the reports in Kenosha
County and a statement of our
intention to "fight on". I consider
the defeat of Karel a great point
in suffrage. We will be at the
conference - and are anxious to
know the situation & plans for work.
Hope that you are having as much
pleasure as we are benefiting
by it.
Yours to the point. L. H. Jordan

P. S. - I find a check for due
to the National which has been
overlooked during the strenuous
week preceding election.

At the end of the week, I expect
Rev. Marion Murdock of San
Francisco who will remain

in Keosauha for two or three
weeks. I am sure you would
find her a splendid speaker
for the conference, if it is to
be held during her stay.

Have you any National Convention
arrangements? Mine has been
lost during the rush? It is quite
possible that I may go.
Truly yours
Lester B. Jordan
