MILWAUKEE, WIS.,

My dearest Ada,

I wish that people said as
many nice things about me as they do
about you when you go away. How-
ever let me tell you that they don't
wait until you go away. Did you
hear the nice things Jane Adams had
to say of you? I am not going to tell
you -

I hope you have a photograph of yourself
out there. The one I sent to the Woman's
National Workshop, University City, St Louis
must have gone astray because they
are crying for one of you. Will you send
one at once, well labeled. They also want

more copy so if you think of any they
more send it to them. "Four this
Suffrag Day" or "The Anti trips would
make good subjects.

I am working down town tonight
in fact I am almost glad to be in
office - have been here all Sat. part
of Sunday and really came down
by 8:15 this morning. Can you believe
it. We were again. The half hour
slap most nearly killed me off
for the morning.

If you happen
to think of some jokes for Judge
you might send them a few.
At 10:30 and must go.

Much much love

Flora.
