

Foreword

I have gathered this material about our ancestors from relatives, old papers, some church records and also checking a few records in the court house.

The first edition was completed in 1954 and each generation was listed in a column, with the next generation in the next column, etc. All that material is in this second edition plus many more generations.

The code I used for this lineage of the Persohn ancestors is :-- The letter of the alphabet represents the generation and the numbers behind the letter indicates the child in order of its age in the family.

EXAMPLE:

A3 - 1st generation and 3rd child in family.

B2 - 2nd generation and 2nd child in family.

E1 - 5th generation and 1st child in family.

etc:

Some names and dates are missing in some families. We wrote several times but received no answer, so we could not complete the family data.

- I First story
- II Additional history
- III Families
- IV Pictures and documents.
