When ordering specify plate number

Kohler Exterior Finishes and Decorations for Bath Tubs

THE exterior of all bath tubs, receptors, sitz and foot baths, unless otherwise specified, is furnished with one coat of paint only, and, if a special finish is desired, it should be specified when ordering.

Kohler Exterior Finished Bath Tubs present a most pleasing appearance, and add to the cleanliness of the bathroom. The highly polished exterior closely resembles porcelain enamel, is impervious to moisture, and harmonizes with white walls, fixtures and trimmings used in the bathroom.

To receive this finish the tub must undergo special preparation and the process of application requires special skill and facilities. We have a special department devoted to exterior finishes and to get the best results the work should be done at the factory. Only the best grade of materials are used and the work is done by men skilled and experienced in this particular line.

Exterior Finishes and Decorations should be specified as follows:

- No. 1 Zinc White Finish
- No. 1 Ivory White Finish
- No. 2 Zinc White Finish
- No. 2 Ivory White Finish
- Gold Leaf Band
- Gold Leaf Lines

Special decorations can be furnished if wanted.
