

Most of the young men who take the winter courses realize that it offers them the supreme opportunity of their lives and they are taking advantage of that opportunity, as have those who have graduated before them, to become the seedsmen, the breeders of better livestock, and above all, the home-builders of the state.

SHORT COURSE DEBATING SOCIETY

Opportunities for Graduates

During the past year the employment bureau of the College of Agriculture has been unable to meet the rapidly increasing demand for students to work on farms in this and other states. Many of the students have returned to home farms.

The nature of the positions which are open to Winter Course students is shown by the following:

General farm labor. The opportunity for farm positions on general farms other than the home farm, is exceptionally good. These positions pay experienced men from \$50 to \$85 a month with board.

Herdsmen Foremen. Many enterprising and successful farmers need trained men to assume the responsibility of the man-

agement of the herds. This is a responsible position that pays from \$70 to \$85 and sometimes \$100 or more a month with board. This type of position serves as a stepping stone for something better; it frequently leads to a managerial job.

Some farmers with a large amount of business require the services of a foreman who looks after certain parts of the work of the farm under the direction of a manager.

Farm Managers. The demand for men to manage farms is on the increase. The compensation offered for such positions varies according to the experience and training of the man. Exceptional opportunities for men with experience and Short Course training are frequent.

Share renters. Young men with some capital in addition to their training and experience may find opportunities for renting farms on a share basis. This may serve as a stepping stone to farm ownership.

Return to the home farm. Most of the students who take the Winter Courses find it to their advantage to return to the home farm. Many of them enter into partnership with their fathers.

Cow testing work. This type of work offers good opportunities for students in this and other states. The work pays from \$60 to \$100 a month and includes living expenses.

Special Work. Men are wanted for special work in dairy manufacturing and take the Dairy Course. Others strengthen their preparation in machinery, farm business, poultry and other lines and often secure positions requiring this special preparation.
