

to Winter Course students. These give opportunities for a touch of college spirit that gives students an idea of "the Spirit of Wisconsin."

The Agricultural Experiment Association. The association is an organization of former students of the College of Agriculture and others who are interested in introducing improved methods and practice upon their farms. This association has been especially helpful in conducting field tests with grain and forage crops and in growing and disseminating purebred seeds.

The annual meeting of this association occurs during the second term of the Winter Course and the students are given an opportunity to attend the meetings and to become members. R. A. Moore is secretary of the association.

The Wisconsin International. The Wisconsin International put on by the Saddle and Sirloin Club is an event that shows the real mettle of the Winter Course boy. The competition is keen in the show ring and a large share of the prizes are won by the Winter Course boys.

Closing Day Exercise

Students who compete the studies of the Winter Course in a satisfactory manner will be granted Winter Course certificates duly signed by the President of the University and Dean of the College of Agriculture.

For the last ten years the certificates have been presented at the Closing Day exercises held on the last day of the course. Some prominent speaker is procured to give the address and special music is furnished for this occasion.

Winter Courses at the College of Agriculture

The General Farming Course—See page 18 and 19. This is our main course requiring two winters of 15 weeks each and 36 credits to receive the certificate. Each winter is divided into three terms. The first year is a requirement for all who are not high school graduates of its equivalent. In the second year and extended schedule on page 22 are suggestions for those who wish to take a third winter at the College. Upon completion of the third year a special certificate is granted.
