

INDEX OF TABLES

Table I	—Table showing effect of no preparation of soil, as compared to careful methods of planting, on height growth of plantations -----	10
Table II	—Planting types, objectives, and recommended practices -----	27
Table III	—Cost of plantation -----	28
Table IV	—Average plantation growth of white, Norway, and Scotch pine in Wisconsin -----	36
Table V	—Table of average diameter and age for white, Norway, and Scotch pine and Norway spruce plantations in Wisconsin -----	38
Table VI	—Average cubic volume per acre produced in plantations of Norway, white, and Scotch pines in Wisconsin, at five year age intervals -----	40
Table VII	—Growth table for average Norway spruce tree based on age at stump -----	41
Table VIII	—Average annual height growth (inches) of trees in plantations of white, Norway, and Scotch pines, on four representative types of soils -----	42
