## NORTHERN WISKONSAN.

---

*To the Legislative Assembly.*

Mr. Alfred Brunson has transmitted to me a description of the northern part of this Territory, with a request that I will submit it to the Assembly, in the hope that it may be useful, in the location of roads through that country, as well as for other purposes. I very cheerfully comply with his request, and have no doubt that his observations if communicated to the public would be highly beneficial to the Territory.
