MEETING OF THE STATE ASSOCIATION AND SALE AT LAKE MILLS.

The sale of Holstein-Friesian cattle held at Lake Mills by the Lake Mills Sale Company was attended by a good gathering of people interested in our breed. A noticeable feature was the number of new breeders that were doing the buying. Many desirable cattle were offered and were struck off to enthusiastic bidders.

The offering consisted of young stuff mostly and many desirable purchases were made by young men buying their first animals. Local buyers held their own with those from a distance, and by far the largest per cent of cattle remained in the near vicinity and surrounding counties of Lake Mills, although buyers were present from South Africa, Japan and California. This speaks well for the progressiveness of local farmers and adds to our contention that Wisconsin is destined to become the "Black and White Spot of America."

The highest prices were realized by A. J. Bristol & Sons of Oakfield, Wis., whose consignment was of an exceptionally high class order.

The evening meeting of the State Association was likewise attended by a good house. The program consisted of a very interesting and instructive address by Professor Alexander of Wisconsin State University, whose lecture was on Farming in Scotland, accompanied by lantern slides.

Professor Alexander's part on the program was of a most instructive and interesting nature and many were the expressions of enjoyment by those who had the pleasure of listening to him.

Doctor Fabille of Chicago addressed the meeting with appropriate words and regretted that time would not permit him to discuss further that which he would like, relating to the object of the State Association.

Business of the nature that had to do with location for the next meeting of the association, receiving of new members and preparing material for state fair, was conducted.

THE ANNUAL MEETING.

The 26th annual meeting of the Holstein-Friesian Association of America was called to order at Syracuse, N. Y., on Wednesday, June 7, by Charles W. Wood of Worcester, Mass., president.

President Wood's annual address was an able one, broad and inspiring in its conceptions of the purposes, duties and privileges of the association and sound in its judgments. He reviewed the work of the past year, paid graceful and earnest tribute to the character of the membership, issued a
warning or two and offered a little good counsel. His comments upon the work of the executive committee, upon registration and the rules pertaining thereto were most valuable and should be well considered by members. He favored affiliation with the Canadian association and the freer importation of Holsteins from Holland.

The meeting was the largest in personal attendance ever yet held. Members present included representation from 20 states, distributed as follows:

- Ontario, 2; Virginia, 1; Maine, 1;
- New Hampshire, 3; Vermont, 6; Connecticut, 9; Massachusetts, 7; New Jersey, 9; Pennsylvania, 16; Wisconsin, 1; Indiana, 1; Iowa, 3; Missouri, 1; Michigan, 10; North Dakota, 1; Minnesota, 2; Oregon, 1; Ohio, 25; Illinois, 12; New York, 244.

The report of the committee on proxies showed 1,698 present by proxy and 365 personally.

Accessions to the membership to the number of 34 were made at this meeting, and others which have been made since the close of the fiscal year make a total addition during the year of 955, and a total membership of 4,280.

Appropriations made for the year include $5,500 for prizes at fairs and dairy shows; $10,000 for prizes for butter records made under the Advanced Registry system, and $15,000 for the work of the literary committee (increased from $10,000).

Article IV, Section 5, of the By-Laws, was amended on motion of E. A. Powell, giving the board of officers authority to increase the fee for registry for cattle over two years old.

The proposition to refuse registration after Jan. 1, 1912, of any animal over two years old, and to increase the fee for registry of such in the meantime to $10 and $20 respectively, for females and males was tabled.

The proposition that the association subscribe for shares of stock of the National Dairy Show association was referred to the board of officers for consideration.

In regard to the request of the U. S. Department of Agriculture as to whether this association shall give full recognition to the herd records of the Canadian association, it was voted that a committee of three, including the president, be appointed to investigate and confer with the committee of the Canadian association, Messrs. J. E. K. Herrick, D. C. Flatt and James Rettie.

The question of amending the by-laws so as to limit the use of proxies, rejecting all solicited proxies in future, called up a lively and extended discussion. The issue was ruled out of order by President Wood on the ground of certain clauses in the charter.

Dr. O. S. Langworthy reported verbally for the committee to investigate the subject of proxies. He said that no full meeting of the committee had been held but conference had been accomplished by mail, and that all the committee except himself, believed that the association was without power, under its charter, to limit the proxy privilege. The committee was discharged.

Great interest was shown in the question of erecting a permanent home for the association offices in New York state, at a cost not to exceed $100,000, and a vigorous debate was held on this subject. Judge John Lynch of Olney, Ill., moved to table the proposition which was submitted by J. R. Hathaway of Homer, N. Y., but his motion was defeated. E. A. Powell of Syracuse made a strong plea for the home, advocating action during the next year. J. T. Williams of Sterling, Ill., spoke earnestly against the location of the home in New York, and in favor of Chicago. Vice-President W. F. Schilling of Northfield, Minn., made a plea for harmony between East and West. D. D. Aitken of Flint, Mich., urged that members forget what state they live in and remember what is best for the association. He suggested that the money required for a home would do more good used for publicity purposes.

Upon motion of A. L. Brockway of Syracuse, the convention voted to have a letter ballot, the result to be submitted at the next annual meeting.
by a committee of five, and the proposition was tabled. The president will appoint the committee.

The report of the treasurer, Wing R. Smith of Syracuse, was received with great enthusiasm. It showed a cash balance on hand of $134,491.38, after payment of expenditures of $30,013.04. This is a gain over last year of $30,000.

The report of the superintendent of Advanced Registry, Malcolm H. Gardner of Delavan, Wis., showed the acceptance of tests of 4,476 animals during the year, whose average yield of butterfat was 14,061 lbs. per week—equivalent to 27½ quarts of milk per day, and 16.4 lbs. of the best commercial butter per week. Yearly tests of 192 cows were reported. The increase in the number of tested cows over last year is 46 2-3 per cent. Thirty states and three Canadian provinces have now taken up advanced registration work.

The leading records for over half the classes of the four prize divisions have been broken during the year, in many of the classes several times. Thirty-five cows and heifers have exceeded the old records.

Three hundred and forty-two animals appear in the prize lists for the seven-day division, 114 in those of the 30-day division, 80 in the “eight months” division, and 152 in the semi-official division; the total number of animals reported as either winning prizes or debarred under the rules being 688. The lowest of the winners in the full-aged class of the seven-day division produced almost 22 lbs. of butterfat, the lowest in the 86 junior two-year-olds, 14.8 lbs. fat. During the year 43 cows have produced above 24 lbs. fat in seven days. The breed can now claim 86 animals of the 24-lb. rank. The best yearly record was made by Lunde Kornodyke, 26,192.7 lbs. milk, 872.73 lbs. fat.

Computation of total solids have been made with nearly 100 cows the past year. The fat content of Holstein-Friesian milk averages nearly 3½ per cent, and the proportion of fat to other solids is as 1 to 2½, the average of total solids being a little over 12 per cent.

The total of entries in the Advanced Register for the year is 5,094, an increase of nearly 44 per cent over last year. The work of the office shows a 55 per cent increase, though the expense account shows less than a 35 per cent increase.

Secretary F. L. Houghton of Brattleboro, Vt., reported business far exceeding that of any previous year, totaling $103,444.20, of which a balance of $56,397.04 was remitted to the treasurer. A total of 70,590 certificates was issued during the year, and 37,701 transfer certificates.

The total number of members admitted during the year is 955, making a total membership of 4,280.

Dr. Henry Baird Favill of Chicago addressed the convention in the afternoon on Tuberculosis. He was a master of the subject and made a strong appeal for sanitation. He urged that tuberculosis among cattle be treated as such, rather than making it an issue along the same lines as handling tuberculosis among human beings.

Report of the Secretary.

Mr. President and Members:

My report for the past year ending May 15th, is one of continued progress and prosperity. The business transacted has far exceeded any previous year, in fact we have transacted in a single quarter as much business
as was done in the entire year of 1907.

We have added to our list of life members 819 names, and have granted five honorary memberships to state institutions.

The total increase of the year is 955 members.

The total membership is now 4,280.

The total receipts of the office have reached the sum of $103,444.20, of which $77,985.75 was received for registration fees, $22,475.00 for memberships, $919.75 for herd books, and $164.29 for sundry items. This is an increase of about 34 per cent over the preceding year.

The total expenditures, including the large appropriation for the Literary Bureau, amount to $47,047.16, and there has been remitted to the treasurer the magnificent balance of $56,397.04.

In detail the receipts are:

Volume 28 of the Herd-Book has been printed and distributed during the year, carrying the total number of bulls to 69020, and the total number of cows to 134736. Volume 29 of the Herd-Book, containing entries of 12,472 bulls, and 20,417 cows, is being printed.

The total number of certificates issued is 70,590. In detail, 12,472 males numbered from 69021 to 81493, and 20,417 females numbered from 134737 to 155154. Transfer certificates for 14,089 males have been issued, and 23,612 for females; a total of 37,701 for the year. These figures represent a total gain over last report of 2,783 bulls, and 7,847 females, a total of 8,630; and 3,185 male transfers, and 3,538 females, a total of 6,723, making a grand total increase of 15,453 certificates for the year. On January first we began the use of the new certificate of registration as prescribed by the
Board of Officers and it has met with universal commendation.

The work of the Committee on Prizes has been transacted by the Secretary's office, and its report in accord with recommendation of the Board of Officers now shows the name of each animal awarded a prize at any fair and amount of the prize, in regular classification and the name of its owner, forming a permanent and valuable record of the prize winners of the breed.

The work of the Literary Bureau has also been carried on by the Secretary's office under direction of the Literary Committee. The appropriation for this purpose was $10,000. Of this amount $8,112.43 was expended for advertising in 50 papers and magazines. A very large amount of printed matter has been distributed as a result of the advertising and by special arrangements through breeders, clubs, booths at dairy shows, etc., with most beneficial general results. It may be stated that since the inauguration of the advertising of the breed in past three years, our receipts have increased almost 95 per cent.

Respectfully submitted,

F. L. HOUGHTON,
Brattleboro, Vt. Secretary.

The Value of County Organizations

The value of county organizations, or county co-operation, for the encouragement of the breeding of pure bred live stock, can hardly be realized in localities where such associations have never existed.

For instance: The Waukesha County Holstein-Friesian Breeders' Association was organized two years ago with only twenty-six charter members, and at this date have over one hundred members, who either own fine pure bred herds of Holsteins, or have a fine herd of grades and a few registered cows or heifers, headed by a pure bred sire.

Considering the fact that there is in Wisconsin alone over 2,500,000 cattle, the increasing of their value and production becomes a serious question. Any cause that has a good ending is a noble one and should be encouraged by co-operation.

It has been demonstrated that by using a bull of producing ancestry, that his daughters will produce at least ten per cent more milk and butter fat than did their mothers under the same conditions. These same daughters bred to another bull of proven worth should produce daughters with a still greater power of production and so on until the dairy cows throughout the country are materially greater producers. Oh, yes, we say, "These facts can all be learned by experience," but then, too, we may not catch on until we are so advanced in years that we are unable to appreciate a cow that makes 37 pounds of butter in a week, or one that makes over 1,200 pounds in one year. Why wait so long when by co-operation and social intercourse we can become familiar with these facts during the best part of our lives?

Holsteins are a decided success as dairy cattle, otherwise there never would have been 234,000 of them registered in the last forty years in North America. Such being the case, help by co-operation to increase the production of the dairy cows by inducing the dairymen to maintain a pure bred herd of producing cattle from which bulls may be selected to cross upon the common cattle throughout the country. By so doing you will have helped yourself, and at the same time been a public benefactor, as hereuntofore stated, the cause is a noble one.

If you are a farmer and your situation is not adapted to dairying, the same methods of co-operation should be carried out in the encouragement of the breeding of other live stock; why not, when the Federal census shows Wisconsin live stock to be valued at $58,454,000?
Dairymen want Holstein cattle, but how are they going to find them if breeders do not let them know where they live, and how many and what kind of cattle they have for sale? You could not sell gold dollars for fifty cents each if the public did not know you had them for sale, neither can you sell Holsteins if you do not let the dairymen know you have them for sale. You must let them know that you have them for sale by judicious advertising and co-operation. Advertising by co-operation has proved a success with members of the Waukesha County Holstein-Friesian Breeders' Association and I dare say has with other live stock associations.

The young breeder starts out usually with a registered sire and a few pure bred cows or heifers, and the balance of the herd grades. Of course, he has nothing to offer for a time except a few pure bred bull calves and a few grade cows or heifers that are being replaced by the pure bred female increase of the herd as his own herd offers a market for the pure bred females. He cannot afford to run a display ad. for any length of time for so small an investment.

It costs no more to state in an ad, two carloads of registered bulls for sale than does it to state two bulls for sale. If he does not advertise, no one would look him or his small herd up, nor will his neighbors buy of him as everybody imagines that everything, especially live stock, is of more value if purchased from a great distance.

The question arises, how is this young breeder going to dispose of his small offering? The answer is—by co-operation by listing them free in a Sales List, gotten out by his County Association, for which he can be a member at from two to five dollars per year, and which for the good of its members ought to be ten dollars.

County organizations are usually conducted on an inexpensive basis as the officers usually render their services gratuitously and the dues are used for advertising purposes, such as advertising collectively what the members have for sale in agricultural papers, getting out sales lists, etc. However, the sales lists are often largely self contained, as local firms find it a good advertising medium as well as the large breeders who are members of the Association, who desire to take out display ads.

Here's the point again: it costs less accordingly to advertise on a big scale and gains more notice while in operation, than it does to advertise in a small way. Then, too, a buyer will go to a community where several hundred or a thousand animals are offered for sale. We all prefer a large assortment.

It's community advertising, it is one of the surest and most economical means of advertising, and is of untold value to the breeders in general. If it is important for the United States to be known as a Holstein country, it is also important for each state to be popular, and what is true of the United States and of the individual states is equally true of each and every county.

County organizations are the surest means of boosting your own locality and is only in its infancy, judging from the good that has come from them and the growth that this means of cooperative advertising has made in the state of Wisconsin.

M. W. DOWNING, D. V. S.,
Secretary Waukesha County H. F. B. Association.

THE WATERTOWN SALE.
The sale pulled off at Watertown last month was a very successful affair in every way.
A good crowd of interested buyers were present and the bidding was spirited. Good prices were realized, especially by those whose individuality and breeding was pleasing. One of the heaviest buyers at the sale was David Monroe, of Spokane, Wash., whose purchases amounted to $12,000.
The sales of pure bred stock reached $40,000, one cow selling for $3,500. A number of grade cattle were also disposed of.
RECORDS.

W. C. Schroeder, Racine, Wis., reports:
Johanna Pauline De Kol Rue 2d, 2 years 5 months; milk, 321.8; butter, 16.8; 80 per cent fat.
Belle Pauline De Kol 2d, 2 years 2 months; milk, 344.8; butter, 15.1; 80 per cent fat.
Molly Bismark 3rd, 2 years 4 months; milk, 403.8; butter, 15.38; 80 per cent fat.
Mrs. Maria E. Gunderson, Oconomowoc, Wis., reports:
Garnett Johanna Homestead Posch, 2 years; milk, 317; butter, 14.10.
Petunia Homestead Johanna, 2 years; milk, 235.5; butter, 11.12 (on three-quarter redder).
Victoria Daisy 2d, 6 years; milk, 336.6; butter, 21.85.
Ed. M. Schultz, Hartford, Wis., reports:
Piebe Estata Dora, 6 years; milk, 554.3; butter 26.2.
Johanna Star Colantha, 4 years; milk, 515.8; butter, 22.8.
Aaltje Salo Ruth, 5 years; milk, 484.7; butter, 20.8.
Johanna Star Reka, 2 years; milk, 417.3; butter, 19.0.
Johanna Star Ruth, 2 years; milk, 406.8; butter, 17.8.
Wisconsin Star 2nd, 2 years; milk, 391.9; butter, 17.7.
Johanna Star Sarcastic, 2 years; milk, 368.1; butter, 16.2.
Johanna Star, 3 years; milk, 18.654, one year; butter, 672, one year.
Jewel Star, 2 years; milk, 14.812, one year; butter, 643, one year.
Johanna Colantha Posch 2nd, 2 years; milk, 13.275, one year; butter, 590, one year.

SEASONABLE NOTES FROM BAIRDLAND.

F. R. Weymouth, Supervisor from the Wisconsin Experiment Station, has been with us and has just completed the following official records:
Cande DeKol Westview, in her heifer form with first calf, milk 391.2 lbs., butter 20.06 lbs., average per cent. of fat 4.09. She is a sister of our Wera Bell Westview, 21.98 lbs. butter at two years and winner of the Hoard’s Dairymen Prize for the month of January, in the Wisconsin cow competition contest. This credits their sire, Aaggie Cornucopia Pauline Count 7th, with two daughters with records above 20 lbs. in their heifer form.
Snowball Pride Canada, a daughter of Canary Paul, and out of Snowball Pride Polkadot, 27.66 lbs. at five years, (now owned by David Monroe, Spokane, Wash.) made the following record at two year, two months and two days of age, milk 267.8, butter 16.65 lbs., average per cent. of fat 4.67.

We are very fortunate in that the heifers with records just completed each dropped a fine heifer calf beautifully marked, sired by our senior herd bull Sir Walker Segis.
These heifers are of the large type, perfect individuals, and the kind we like to breed from. Their udders are large and well developed. They have both joined our Semi-Official force for a year’s work now making eight cows working out yearly work. We believe these records are a credit to any herd being made during the hot month of June.

S. A. BAIRD & SON.

SALES.

Nass, Ernst, Jefferson, Wis., sold to Jacob Hake, Jefferson, Wis., Gewind Queen Netherland 78325.
Morse, Mary C., Sparta, Wis., sold to John Cassek, Sparta, Wis., bull calf; Sire Filled Sir Alcara 56099; Dam Meah 3d Allie. 53123, to G. E. Dodsworth, Elroy, Wis., Challenge Pink Johanna 99098, Challenge Girlie Johanna 99097.
Paton, T. J., Juda, Wis., sold to A. H. Staffacher, Buhl, Idaho, Sir Concordia Johanna Coral 4th; Sire Sir Concordia Johanna Coral; Dam Sadie Sethje De Kol.
Robbins, John W., Cambridge, Wis., sold to Edgewater Stock Farms, Fort Atkinson, Wis., Lacy Lee Madrigal 112432.
C. O. Ruste, Blue Mounds, Wis., sold to L. Sutter, Mt. Horeb, Wis., Prince Aaltje Wayne 80121; to Otto Hill, Mt. Horeb, Wis., Prince Wayne Netherlands De Kol 80122.

W. C. Schroeder, Racine, Wis., sold to Arrew Stearns, Racine, Wis., Hartog Burke De Vries 71186.

Ed. M. Schultz, Hartford, Wis., sold to P. F. Buelke, Plymouth, Wis., Dr. Johanna Sarcastic, Reba Beinmkje 2d, Johanna Star Estata.

Mrs. Maria E. Gunderson, Oconomowoc, Wis., sold to Julius Frederickson, Stoddard, Wis., male calf born April 7, Dam Alderley Lily, Sire Clovedale Pietertje Posch.

Schley Bros., Waukesha, Wis., to O. E. Sette, Juneau, Wis., Sir Wartenia Prince: to Fred Kniffer, Waukesha, Wis., Sir Beinmkje DeKol Pontiac 78159.

C. W. Welch, Sec. of the Price Co. Association, has this to say about Black and Whites.

THE PROGRESSIVE AMERICAN:

Waukesha, Wis.

Editor:

In my immediate neighborhood we have been raising them for on'y three years, so can not tell much about milk strain yet. We have some very nice young stock and no scrubs, judging from the looks.

All who started in to breed Holsteins are satisfied with them and others are joining us all the time. There are many who wish to buy, but no sellers can be found. We hope to make better resorts when we are older, but are well pleased with our stock, and that means a great deal towards being successful with stock.

Respectfully,

C. W. WELCH.

SELLS PRIZE HOLSTEIN.

H. E. Reddelein, proprietor of Hillvale Stock Farm, was a St. Paul, Minn., caller the past week, his errand being to complete a contract for the sale of his Holstein bull, King Ormsby. Mr. Reddelein states that this is the banner sale of Waukesha County, the consideration being $1,000 for a half interest, which places his bull as the most valuable animal in Waukesha County.

King Ormsby will hereafter be used in the best large herd in the west, in connection with the first prize champion and grand champion bull at the National Dairy Show at Chicago last fall, and to such females as were able to secure the 14 premiums and 12 championships at the Minnesota state fair.

William S. Moscrip, the fortunate purchaser, has for more than a year been scouring the entire country for a bull to mate to his magnificent females and the daughters of his present world renowned show bull, and Waukesha County can certainly be proud to furnish goods for this high ideal. Wisconsin is destined, on account of its natural environment and its surrounding boundary states, to become the world's central breeding grounds.

THE PROGRESSIVE AMERICAN:

Waukesha, Wis.

Editor:

Knowing the value of The Progressive American to black and white breeders, I am sending you my subscription for one year.

Yours truly,

G. C. EIFERT.

Hartford, Wis.

BIRTHS.

March 31—Sire, Johanna Col. Sarcastic Lad; dam, Jewel Star, at 2 years 18.2 lbs. butter 7 days; 643 lbs. butter one year.

April 17—Sire, Dr. Johanna De Kol; dam, Johanna Col, Posch 2d, at 2 years 15.9 lbs. butter 7 days; 590 lbs. butter one year.

May 17—Sire, Dr. Johanna De Kol; dam, Johanna Star, at 3 years 17.8 lbs. butter 7 days; 672 lbs. butter one year.

January 11—Sire, Johanna Colantha Sarcastic Lad; dam, Aaltje Salo Ruth, 20.8 lbs. butter 7 days.

March 20—Sire, Dr. Johanna De Kol; dam, Johanna Star Reka, at 2 years 19 lbs. butter 7 days; owner, Ed. M. Schultz, Hartford, Wis.

Juliet Everts Robb, writing to the New York Tribune, says that the divided skirt is "a long stride" in the right direction.

A man takes a drink, then the drink takes a drink, and then the drink takes the man.—A Japanese Proverb, Good Health.
A BALLAD OF VEGETABLES.

A potato went on a mash
And sought an onion bed;
“Th’as pie for me!” observed the squash,
And all the beets turned red.
“Go way!” the onion, weeping, cried;
“Your love I cannot be;
The pumpkin be your lawful bride—
You canteloupe with me.”

But onward still the tuber came,
And lay down at her feet.
“You cauliflower by any name
And it will smell as wheat;
And I, too, am an early rose,
And you I’ve come to see;
So don’t turnip your lovely nose
But spinachat with me.”

“I do not carrot all to wed,
So go, sir, if you please!”
The modest onion meekly said,
“And lettuce, pray, have peas!
Go, think that you have never seen
Myself, or smelled my sigh;
Too long a maiden I have been
For favors in your rye!”

“Ah, spare a cuss!” the tuber prayed;
“My cherryshed bride you’ll be;
You are the only weeping maid
That’s currant now with me!”
And as the wily tuber spoke
He caught her by surprise,
And, giving her an artichoke,
Devoured her with his eyes.

SHEBOYGAN FALLS, WISCONSIN
BELOIT COLLEGE
BELOIT, WISCONSIN
DISTINCTIVE FEATURES OF BELOIT

1. ITS LARGE ENDOWMENT AND UNUSUAL EQUIPMENT

The productive endowment is $1,174,000 and its yearly increase is $100,000. Total assets of the College including buildings and grounds are $1,784,000. There are seventeen college buildings of which six are comparatively new, including dormitories for men and women, a large Science Hall, a Gymnasium for men, a Carnegie Library, and a beautiful Chapel.

2. THE FACULTY AND THE STUDENT BODY

There are thirty professors, all of whom are men. The total enrollment in the four college classes is 410, of which 256 are men and 154 are women. Personal relations are maintained between instructors and students. Oratory, debating, and athletics occupy a prominent place in a democratic student life. Beloit is the place for the poor boy. Over forty per cent. of the men at Beloit support themselves wholly or partly by outside work. The College assists worthy and needy students by granting scholarships and by aiding them to secure employment.

3. THE PRACTICAL NATURE OF THE CURRICULUM

The curriculum is broad, modern and largely elective. It prepares men and women for the professional study of law, medicine, agriculture, engineering, domestic science, forestry, and teaching. This foundation work taken at Beloit is accepted by the leading universities of the East and the West.

Wisconsin Star

Stock Farm

Offers Bull Calf backed by

LARGE YEARLY RECORDS

Dam:—“JEWEL STAR” with an A. R. O. record of 18.2 lbs. butter in 7 days, 14,812 lbs. milk and 643.2 lbs. butter in one year at 2 years 4 months of age. She won Hoards Dairyman’s prize in the Wisconsin Dairy Cow Competition for the month of March, 1910.

Sire:—“JOHANNA COLANTHA SARCASTIC LAD,” whose dam and sires dam average over 26 lbs. butter in 7 days and nearly 20,000 lbs. milk and 850 lbs. butter in one year. His six 2-year-old daughters average 17.7 lbs. butter in 7 days at an average age of 2 years 1 month. One daughter made 672 lbs. butter in one year at 3 years of age and another one 590 lbs. butter in one year at 2 years of age. Three other daughters have been entered in the yearly test and are making a very remarkable showing. His sister has a record of 32.9 lbs. butter in 7 days and 134.6 lbs. in 30 days. He is also closely related to Colantha 4th Johanna, 27,432 lbs. milk and 1,247.8 lbs. butter in one year. World’s record for milk and butter.

This bull calf is a very nice individual, light in color and very nicely marked. His dam is one of my most promising young cows and will surely make a very large record when tested again.

Write me for extended pedigree and price.

ED. M. SCHULTZ,
HARTFORD, WIS.
Our two-year-old heifer, Wera Bell Westview 21.98 lbs. in seven days, has a credit in the W. D. C. C. of 418.37 lbs. of fat in five months. Her sister, Canoe Dekol Westview, in her heifer form has just made over 20 lbs. average per cent. of fat 4.09. We have seven others making yearly records with high credits. We have a number of Grandsons of King Segis to offer from high producing dams. Why not select your next herd sire from a herd where breeding, individuality and production are proven.
