

Forest tree planting on the part of private land owners is constantly encouraged by the Conservation Commission. In order to stimulate these activities planting plans are prepared for land owners, and thrifty planting stock is supplied from the state nurseries at cost. This co-operative effort to encourage tree culture in the state has met with a reasonable response from land owners, as the sales of planting stock will verify. It is safe to predict that this opportunity offered by the Commission will be taken advantage of in an enlarged way in the future. The order blank adopted by the Commission, and the 1917 price list for planting stock follows:
